AMAN KUMAR

Java Developer | Spring Boot | REST API | Full Stack Fresher | Immediate Joiner

9155412326 • amankkr38@gmail.com • Bengaluru • linkedin.com/in/amankumar1001 • github.com/amanmathur101

PROFESSIONAL SUMMARY

Results-driven Java Full Stack Developer (Fresher) with demonstrated experience in designing, building, and deploying two production-grade applications using **Java 8, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, PostgreSQL, and ReactJS.**

Proficient in developing secure **RESTful APIs with JWT-based authentication and Role-Based Access Control (RBAC)** using Spring Security. Strong foundation in OOP, DSA, MVC Architecture, and Agile/Scrum workflows.

Completed professional Java Full Stack training at JSPIDER. Achieved **Runner-Up at Smart India Hackathon 2024 (National Finals)** and solved 150+ DSA problems on LeetCode & GeeksforGeeks.

Seeking a Java Developer / Software Engineer Trainee role. **Immediate Joiner. Open to relocation across PAN India.**

TECHNICAL SKILLS

Languages	Java 8, Core Java, JavaScript (ES6+), SQL
Backend	Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate, RESTful API Design, JWT Authentication, JDBC
Frontend	ReactJS, HTML5, CSS3, Tailwind CSS
Databases	PostgreSQL, MySQL
Tools & DevOps	Git, GitHub, Maven, Docker, Postman, IntelliJ IDEA, Eclipse, Render, Vercel
Concepts	OOP, DSA, Multithreading, Exception Handling, RBAC, MVC Architecture, Agile/Scrum, SDLC

PROJECTS

Job Portal Platform

https://github.com/amanmathur101/JobPortalBackend

Tech Stack: Java 8 | Spring Boot | Spring Security | JWT | Spring Data JPA | Hibernate | PostgreSQL | JavaScript | Docker | Render

- Developed a production-ready full-stack job portal supporting 100+ user registrations and job listings with role-based access control (USER / RECRUITER) using JWT + Spring Security.
- Designed and integrated 10+ RESTful APIs for user management, job posting, resume upload, and application tracking — following full SDLC best practices from requirements to deployment.
- Implemented JWT-based authentication and RBAC using Spring Security, ensuring secure and isolated data access between user roles.
- Optimized PostgreSQL queries via indexing and execution plan tuning, reducing API response time by 25%.
- Containerized the application using Docker and deployed on Render (backend) + Vercel (frontend), demonstrating end-to-end deployment ownership.

Banking Management System

https://github.com/amanmathur101/BankApp

Tech Stack: Java 8 | Spring Boot | Spring Security | JWT | Spring Data JPA | PostgreSQL | JavaScript | Render | Vercel

- Engineered a secure, transactional banking application supporting account creation, deposits, withdrawals, and fund transfers with real-time validation and atomic consistency using @Transactional.
- Implemented Role-Based Access Control (RBAC) and JWT authentication with Spring Security; designed a normalized relational schema to ensure data integrity and maintainability.
- Exposed and documented RESTful APIs for account and transaction management using Postman, enabling efficient collaboration and testing workflows.
- Deployed backend on Render and frontend on Vercel with cloud PostgreSQL integration, managing the complete SDLC from design to production release.

PROFESSIONAL TRAINING & INTERNSHIP

Java Full Stack Developer Trainee *Jul 2025 – Feb 2026*
JSPIDER — Bengaluru

- Developed RESTful APIs using Spring Boot, Spring MVC, and Hibernate for backend service integration, following industry-standard SDLC practices from design to deployment.
- Improved SQL query performance by 15% through strategic indexing and query optimization on PostgreSQL; performed CRUD operations aligned with database best practices.
- Built responsive frontend UI components with HTML5, CSS3, Tailwind CSS, and JavaScript, applying MVC architecture and OOP principles across all development work.
- Actively participated in Agile/Scrum sprint planning, daily standups, code reviews, and Git-based version control workflows — demonstrating accountability and team collaboration.
- Contributed to technical documentation and knowledge-sharing sessions; promoted process adherence and peer learning.

Python Programming Intern (Online) *Nov 2024 – Dec 2024*
National Institute of Electronics & IT (NIELIT)

- Completed an 8-week intensive Python internship organized by NIELIT, Gorakhpur, gaining hands-on experience in scripting and backend programming fundamentals.
- Applied Python concepts in structured exercises and mini-projects under professional mentorship.

EDUCATION

Bachelor of Technology (B.Tech) — Electronics & Communication Engineering
Saharsa College of Engineering, Bihar *Oct 2021 – May 2025*
Top 10% in class | Runner-Up at SIH 2024 (National Finals)

ACHIEVEMENTS & CERTIFICATIONS

- **Runner-Up, Smart India Hackathon 2024 (SIH) — National Finals:** Selected to represent in national finals by building an innovative full-stack tech solution. Competed among top engineering teams pan-India.
- **Top 10% Academic Rank:** Excelled in college-level coding contests and technical competitions — consistently among top performers.
- **Problem-Solving Excellence:** Solved 150+ DSA problems on LeetCode & GeeksforGeeks — covering arrays, strings, trees, graphs, and dynamic programming.
- **Certification — Computer Networks and Internet Protocols:** Completed certification course (Jan 2024 – Apr 2024) covering networking fundamentals, TCP/IP, and internet protocols.
- **Competitive Exam — JEE Mains:** Qualified JEE Mains with All India Rank 5045, demonstrating strong analytical and quantitative aptitude.

Available Immediately | Open to Relocation: Bengaluru | Hyderabad | Pune | Delhi | Chennai | Mumbai
